CHUMIE FRIEDMAN

Now, this last item is not really a snack, but can be used to make many things a special treat. *Kernel Season's* (CRC parve and dairy) is an exciting new product and idea — popcorn seasonings in a container. I know, I know — popcorn seasonings? I thought it was a little strange too, until we started using them. I took home Apple Cinnamon, Chocolate Marshmallow and BBQ, and have used all three. And not just on popcorn. The Chocolate Marshmallow on vanilla ice cream, the apple cinnamon in plain yogurt and the BBQ on chicken — that's right, chicken. They are all natural, no fat, no MSG and very little sodium. We also tried it on popcorn; for that our favorite is apple cinnamon. However, there are so many varieties to choose from, you can make everyone happy. Check out their website at [www.kernelseasons.com](http://www.kernelseasons.com) to find out where to purchase. ■
